

## **NEW QSL COMMEMORATES THE 2018 WINTER OLYMPIAD JANUARY 2018**

Radio Free Asia (RFA) announces its 66<sup>th</sup> QSL card. This latest design commemorates the 2018 Winter Olympic Games in PyeongChang, Republic of Korea scheduled for February 9-25, 2018. The Games always bring people together from around the world in peace and harmony to respect universal moral principles. This new design shows an adaptation of RFA's first panda design originally used for the 2008 Beijing Olympics. This updated version of the original design adds a winter cap stylized to match the Games. This QSL design is used to confirm all valid reception reports from January – April 2018.

*RFA's QSL commemorating the 2018 Winter Olympics*

Created by Congress in 1994 and incorporated in 1996, RFA broadcasts in Burmese, Cantonese, Khmer, Korean to North Korea, Lao, Mandarin (including the Wu dialect), Vietnamese, Tibetan (Uke, Amdo, and Kham), and Uyghur. RFA strives for accuracy, balance, and fairness in its editorial content. As a 'surrogate' broadcaster, RFA provides news and commentary specific to each of its target countries, acting as the free press these countries lack. RFA broadcasts only in local languages and dialects, and most of its broadcasts comprise news of specific local interest. More information about Radio Free Asia, including our current broadcast frequency schedule, is available at [www.rfa.org](http://www.rfa.org).

RFA encourages listeners to submit reception reports. Reception reports are valuable to RFA as they help us evaluate the signal strength and quality of our transmissions. RFA confirms all accurate reception reports by mailing a QSL card to the listener. RFA welcomes all reception report submissions at <http://techweb.rfa.org> (follow the QSL REPORTS link) not only from DX'ers, but also from its general listening audience.

Reception reports are also accepted by email at [qsl@rfa.org](mailto:qsl@rfa.org) and by mail to:
