

RADIO FREE ASIA COMMEMORATES 21 YEARS WITH NEW QSL SEPTEMBER 2017

Radio Free Asia (RFA) announces its 21st anniversary QSL. Bringing free press to closed societies, RFA's first broadcast was in Mandarin on September 29, 1996 at 2100 UTC. This redefines our QSL designs incorporating one graphic into four separate QSL cards and giving listeners options submitting reception reports. You will receive ¼ of the design for one reception report, or get the full sheet when sending us at least four reception reports. This is RFA's 65th QSL design and is used to confirm all valid RFA reception reports from September – December 2017.

Full sheet of RFA's 21st Anniversary QSLs

Individual RFA 21st Anniversary QSLs

Created by Congress in 1994 and incorporated in 1996, RFA broadcasts in Burmese, Cantonese, Khmer, Korean to North Korea, Lao, Mandarin (including the Wu dialect), Vietnamese, Tibetan (Uke, Amdo, and Kham), and Uyghur. RFA strives for accuracy, balance, and fairness in its editorial content. As a ‘surrogate’ broadcaster, RFA provides news and commentary specific to each of its target countries, acting as the free press these countries lack. RFA broadcasts only in local languages and dialects, and most of its broadcasts comprise news of specific local interest. More information about Radio Free Asia, including our current broadcast frequency schedule, is available at www.rfa.org.

RFA encourages listeners to submit reception reports. Reception reports are valuable to RFA as they help us evaluate the signal strength and quality of our transmissions. RFA confirms all accurate reception reports by mailing a QSL card to the listener. RFA welcomes all reception report submissions at <http://techweb.rfa.org> (follow the QSL REPORTS link) not only from DX’ers, but also from its general listening audience

Reception reports are also accepted by email at qsl@rfa.org and by mail to:
